

Four Little Fish

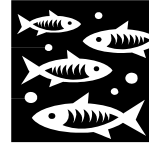

4 little fish swimming out to sea,
One met a shark and then there were 3!
3 little fish wondering what to do,
One hid in a great big shell and then there were 2!
2 little fish looking for some fun,
One chased a wave and then there was 1!
1 little fish with all his friends gone,
Went back home to find his dad
and then there was none!
