

Estimating Centimeter Measures

Materials: rulers

1. Work with a partner. Estimate the length, width or height of five classroom objects to the nearest centimeter.
2. Use a ruler to measure each object.
3. Between which two whole numbers is each measurement? Record your findings in a chart.

We measured...	My estimate...	Measurement
the length of a pencil	about 6cm	between 6 and 7cm
the width of a book		

4. Write three facts about your data.

Word Bank		
length	width	height
about	centimeters	between

I estimate the length of the _____ to be _____. The actual measure was between...

I estimate the height of the _____ to be _____. The actual measure was between...

I estimate the width of the _____ to be _____. The actual measure was between...

Three facts about my data:
1.
2.
3.
