

Find Ten

Materials: One two-color counter, one red and one yellow pencil

Number of Players: 2

Directions: Player 1 is red. Player 2 is yellow. Take turns to toss a two-color counter. If your color comes up when you toss, find two numbers on the grid that equal 10 and color them. Write the addition fact. Keep taking turns until all pairs of numbers that equal 10 have been found. Count to see who recorded the most facts of 10.

Player 1

1	9	3	7	6
2	4	9	5	4
8	4	1	5	6
0	6	2	8	5
10	4	7	3	5

Player 2
