

Five Frame Flash

Materials: Set of five frames with dots, blank five frames, counters

1. Work with a partner. Partner A: Flash a five frame while you count “1, 2, 3” in your head.
2. Partner B: Put counters on your blank five frame to make it look just like the one you saw flashed.
3. Check to see if the five frames match.
4. Take turns to flash and build more five frames.

Five Frame Cards: Print, laminate and cut out to make one set.
