

Geoboard Quadrilaterals

Materials: geoboards, rubber bands, geoboard paper, rulers

1. Use a rubber band to make a quadrilateral on your geoboard.
2. Copy your quadrilateral onto geoboard paper.
3. Make and record as many different quadrilaterals as you can.
4. How are the quadrilaterals you made alike? How are they different? Explain your thinking.

Word Bank:	quadrilateral	rhombus	square	trapezoid
rectangle	parallelogram	kite	four sides	closed
vertices	equal length sides	parallel sides
