How Big is a Foot?

Materials: copy of *How Big is a Foot*? by Rolf Myller, pre-cut footprints (king x 18, apprentice x 18)

After listening to the story complete the following task:

1. Place the king’s footprints end to end on the floor to make a bed that is 6 footprints long and 3 footprints wide.

2. Next, place the apprentice’s footprints end to end on the floor to make a bed that is 6 footprints long and 3 footprints wide.

3. Are the beds the same size? Why or why not? Draw and label the two beds. Explain your thinking.
Make 18 copies and cut out.
Make 18 copies and cut out.
