

Bean Thirteen

Materials: copy of *Bean Thirteen* by Matthew McElligott

1. After listening to (or reading) the story, *Bean Thirteen*, choose an even number between 15 and 20.
2. Show what the plates would look like if you shared this number of beans with 2 friends, 3 friends, 4 friends, 5 friends, 6 friends, 7 friends, 8 friends and 9 friends. Record your work in a table.

Number of Friends	Number of Beans Each	Remainder	Equation
2			
3			
4			

3. Repeat with an odd number between 15 and 20.
