

# Lucky Six

**Materials:** Lucky Six board, number cube, counters of two different colors

---

1. Play with a partner. Take turns to roll a number cube.

If you roll **1** you must add **20** to the number you rolled.

If you roll **2** or **4** you must add **40** to the number you rolled.

If you roll **3** or **5** you must add **50** to the number you rolled.

If you roll **6** you may add **10, 20, 30, 40, 50, 60, 70, 80, 90, or 100** to the number you rolled.

2. Say the math talk sentence and cover the sum on your board with a counter. You can only cover one number on each turn.

3. Keep taking turns until one player has four counters in a line vertically, horizontally or diagonally.

I rolled \_\_\_\_ and  
added \_\_\_\_.

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

I rolled \_\_\_\_ and  
added \_\_\_\_.

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

The sum of \_\_\_\_  
and \_\_\_\_ is \_\_\_\_.

The sum of \_\_\_\_  
and \_\_\_\_ is \_\_\_\_.
