

Make Six Numbers

Materials: numeral cards (1-9)

1. Turn over three cards.
2. Use all three cards to make **six** different numbers.

Example:

5

1

2

 512, 521, 152, 125, 215, 251

3. Record your numbers.
4. Order the numbers from least to greatest.
5. Show each number using base ten blocks, in word form, and in expanded form.

Example: 521

□	□	
□	□	□

||. five hundred twenty one 500 + 20 + 1
