Make Ten

Materials: two sets of ten frame cards (0-10)

1. Work with a partner. Shuffle the cards. Put 6 cards face up in a row on the table. Place the other cards in a stack.

2. Take turns to look for two cards in the row with a sum of ten. Pick up the cards and say the fact of ten.

3. Replace the cards you pick up with new cards from the stack. If you cannot make a fact of ten place a card from the stack on top of one of the cards on the table.

4. Keep taking turns until all the facts of ten have been picked up.

5. At the end of the game record the facts of ten that you collected.
