

Measurement Concentration

Materials: Measurement Concentration cards

Number of Players: 2-3

1. Shuffle the cards and lay them facedown on the table in three rows of six.
2. Take turns to turn over two cards. If the measures shown are equivalent complete the math talk sentence and keep both cards. If the measures shown are not equivalent turn the cards back facedown in their original positions.

_____ is equivalent to _____.

3. Continue taking turns until all pairs of cards have been picked up. The player with the most pairs of cards wins the game.

_____ is equivalent to _____.

_____ and _____ have an
equal measure.

_____ is equivalent to _____.

_____ and _____ have an
equal measure.
