

Numeral, Word and Expanded Form

Materials: pack of numeral cards

1. Turn over five cards from the top of the stack and make the largest five-digit number possible. Repeat three times.
2. Create a three-column chart. Represent the 3 numbers you made in numeral, word and expanded form.

Numeral	Word	Expanded Form
86,532	eighty-six thousand five hundred thirty-two	$80,000 + 6,000 + 500 + 30 + 2$

3. Next, turn over five cards from the top of the stack and make the smallest five-digit number possible. Repeat three times.
4. Represent the 3 numbers you made in numeral, word and expanded form.
