

# Race to 100

**Materials:** base ten blocks, place value mats, dice

---

1. Work with a partner. Take turns to roll 2 dice and find the sum. Place that number of ones blocks in the ones column on your place value mat.
2. Continue to take turns rolling, finding the sum, and putting blocks on your mat. When you have 10 ones trade for a ten block. When you have 10 tens trade for a hundred block.
3. The first player to trade for a hundred block wins the game. Clear your mats and play again.

**Challenge:** As you play record the numbers you roll and your total at the end of each turn.

I have \_\_\_ tens and \_\_\_  
ones. I have \_\_\_ in all.

\_\_\_ tens and \_\_\_ ones  
equals \_\_\_. I need \_\_\_  
more to reach 100.
