Renaming Fractions Greater Than One

Materials: dominoes

1. Work with a partner. Choose a domino and position it so that the pips represent a fraction greater than one. Record the fraction.

2. Draw a model to represent the fraction.

3. Rename the fraction as a mixed number.

4. Discuss your solution with your partner.

5. Repeat as time allows.

\[
\frac{7}{2} = 3 \frac{1}{2}
\]
