

Shape Graph

Materials: container of triangle, square and hexagon pattern blocks, graph template

1. Scoop 12 pattern blocks from the container.
2. Sort the pattern blocks by shape.
3. Create a graph to display your data.
4. Write 3 questions about your data.
5. Ask your partner to answer your questions.

Which block did I have the most of?

How many more triangles did I have than squares?

<hr/>							
<hr/>							
<hr/>							

How many _____
did I have?

Which block did I have
the most of?
Which block did I have
the least of?

How many more
_____ did I have
than _____?

How many fewer
_____ did I have
than _____?
