

Skip Counting Towers

Materials: numeral cards (2-10), snap cubes

1. Turn over two numeral cards. The first card tells you how many snap cubes to join to make a tower. The second card tells you how many matching towers to build.
2. Draw your towers. Show how you can use skip counting to find how many snap cubes in all you used to build the towers.
3. Repeat with other pairs of numeral cards.
4. Share your work with a friend.

I made ___ towers of ____.
I used ___ cubes in all. I counted
.....

I made ___ towers of
___. I used ___ cubes
in all. I counted
