

Subtract from Ten

Materials: Counters in two different colors, numeral cards 1-10

Number of Players: 2

Directions: Take turns to turn over a card and subtract the number shown from 10. Say and write the subtraction fact. Cover the difference on the board with a counter. Keep taking turns until all of the numbers on the board have been covered. Count how many counters you each used. The winner is the player with the most counters on the board.

7	8	1	2
0	6	5	6
9	6	4	8
7	9	4	5
3	0	2	1

I know that 10 minus
__ equals __ because
__ plus __ equals 10.

I know that 10 minus
__ equals __ because
__ plus __ equals 10.

The difference
between 10 and ____
is ____.

The difference
between 10 and ____
is ____.
