

Subtract Ten

Materials: base ten blocks (or snap cubes in sticks of tens and ones)

1. Represent 92 using base ten blocks.
2. Remove 10. Record a subtraction equation.
3. Keep subtracting 10 until you reach 2. Record a subtraction equation each time you subtract 10.
4. What patterns do you notice?
5. Choose another 2-digit number between 75 and 89. Represent the number with base 10 blocks. Keep subtracting 10 until you get as close to zero as possible.
