Towers of Ten

Materials: two containers of snap cubes (one red, one blue)

1. Count out 5 blue cubes. Join the cubes.

2. Add red cubes until you have made a tower of ten.

3. Build as many different towers of ten as you can using only blue and red cubes.

4. Draw your towers. Write an addition equation to match each tower.
My tower of 10 has ___ blue cubes and ___ red cubes.

My tower of 10 has ___ blue cubes and ___ red cubes.

My tower of 10 has ___ blue cubes and ___ red cubes.

My tower of 10 has ___ blue cubes and ___ red cubes.
