

Turn Around Trains

Materials: snap cubes in two colors

1. Build a train made from two colors with **less than ten** snap cubes. Place cubes of the same color together.
2. Draw your train and write a number sentence to describe it from left to right.
3. Flip your train, draw it again and write the turn around fact.
4. Repeat with other trains made from two colors.

$$2 + 3 = 5$$

$$3 + 2 = 5$$
