Who Has More?

Materials: number cubes, counters

1. Partner A: Roll a number cube. Count out a set of counters to match the number you rolled.

2. Partner B: Roll a number cube. Count out a set of counters to match the number you rolled.

3. Compare your sets of counters. ▼ ▼ ▼ ▼ ▼ ___ is more than ___.

4. The player with the greater number of counters takes both sets of counters and uses the math talk sentence.

5. After 5 rounds count how many counters you each have. Who has more?
